Teaching Spanish Question Words or Interrogative Phrases

Asking a question in Spanish is a necessary, if not the most necessary, speaking skill. But, most teaching methodologies present using and formulating questions mid-way through the learner’s first year. Beginners must use Spanish immediately! Teachers need to present, teach, and rehearse asking, answering, and formulating questions in the first unit of Spanish study.

Present the Question Words

Spanish question words, or the interrogatives, blend together. They look and sound alike in confusing ways to most beginners. For grades 6-12 in a Spanish program that is not an immersion or content related program, but the traditional model in most American secondary schools, we recommend:

1. Present the question words orally. Your choice on whether to present the written words for students to read. In grades 5-12, I do.
2. Have students do the song, chant, activities, and games to have time, listening repetition, reading practice and the chance to learn them as lone entities.
3. Context. Present the question words in both reading and speaking contexts and inputs that are simple enough for the rank beginner.

Listening and Speaking Inputs with the Question Words

It is vital that the reading or listening material be comprehensible input to the beginner; that is that the beginner can understand it easily. I use Power Point slide shows on at least 3 different subjects or sustantivos so the students get three entire repetitions of three separate Power Points. Here is the sequence

1. Simple description of myself, my pets, and my Spanish class mascot, Chico el Chihuaha.
2. A question word per slide about the subject.
3. The presentation of the interrogative word sorder follow the song order: quién, qué, cuándo, dónde, por qué, cómo, cuántos, ¿qué es esto? *Cuando & and are not used in the presentations. Cuando requires telling time vocabulary and I use ¿qué es esto? constantly for other activities.
4. Full class and partner activities re-reading the description and answering the questions

Then, I do the next subject or sustantivo in the same way.

Practice and Review

Students need to hear, see, read, and use the question words in each class. For the rest of the year I use the same method on a variety of relevant subjects during the warm up of each class and I require the beginning students to use and formulate questions every class too.

I use only one question per slide.

I have the answer move in to the slide with questions after a 4-5 second delay.

La Profesora- I use a gesture for each verb and a prop for each object.
How to Ask and Answer Questions in Spanish

Spanish Question Words

Important “survival expressions” include the question words. Imagine everything a reporter may ask: WHO, WHAT, WHERE, WHEN, HOW, WHY? You will hear these words frequently in class.

Who = **Quién**
What = **Qué**
When = **Cuándo**
Where = **Dónde**
Why = **Por qué**
How = **Cómo**
How much/how many = ¿**Cuánto(os)**?
What is it? = ¿**Qué es esto**?

1. **Sing a Song.** You can remember the question words by singing them as a song. Do you recognize the tune? It’s “Row, Row, Row Your Boat”!

</tr>
</thead>
<tbody>
<tr>
<td>Por qué y Cómo</td>
</tr>
<tr>
<td>Cuánto, ¿Qué es esto?</td>
</tr>
<tr>
<td>¡Las Preguntas!</td>
</tr>
</tbody>
</table>

2. **Singing Contests.** Get in to groups or with a partner. Who can sing the loudest, fastest, best, with a silly voice.

3. **Creating Questions.** To change any statement to a yes/no question, **switch the verb** — bailas, habla — in front of the subject, and don’t forget BOTH SETS OF QUESTION MARKS.

<tr>
<td>Él habla inglés.</td>
<td>¿Habla él inglés</td>

</table>

**Mixed Up Table Match Up**

The columns below do not match; the Spanish meaning does not match the English meaning. You and a partner need to match up the Spanish question word with its English meaning. Your teacher will show you how to do this using numbers or letters.

<thead>
<tr>
<th>Spanish Question Word</th>
<th>English Question Word</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Quién</td>
<td>A. Where</td>
</tr>
<tr>
<td>2. Qué</td>

<td>C. Who</td>

<tr>
<td>7. Cuánto</td>
<td>G. When</td>

<tr>
<td>8. ¿Qué es esto?</td>
<td>H. What</td>

See how fast you can write the English meaning in the column to the right of the Spanish question word!
